

13/01/2017

Dear Partner,

It is with regret that we have to announce that Patrice Pellerin has indicated his desire to pursue his career outside the oenology sector and to leave Oenobrand. But it is also a pleasure to inform you that Patrice will continue to contribute to the growing activities of one of Oenobrand's mother companies as he will join Lallemand Plant Care as Director of R&D starting February 2017.

The Oenobrand team joins me to thank Patrice for his tremendous contribution to our business when he led the development of new yeast, enzymes, nutrients, mannoproteins and bacteria for the wine industry since 1999.

We are very grateful for his "can do" attitude and the many good support and advices he gave to each of us and to you as one of our valuable partners. We will miss a great colleague, a skilled expert and a gentle man.

We have embarked on replacing Patrice with an equally capable and dynamic person. Patrice will stay available to insure a smooth transition with his/her successor and to maintain Oenobrand's high level of responsiveness to your requests.

Please be assured that this is a key priority for me and meanwhile during this period, the team is and will stay committed to our common business and we are available to discuss any areas that you may want to address.

Kind regards

Isabelle van Rollegem
